Title:

Comments: I oppose this massive burning project for the Sequoia and Sierra National Forests in California that covers 2.4 million acres-including all 866,741 acres of designated Wilderness on both national forests! Some of America's most loved Wilderness areas are at stake, including the Ansel Adams, Dinkey Lakes, John Muir, Kaiser, Kiavah, Monarch, South Sierra, Dome Land, Jennie Lakes, and Golden Trout Wildernesses. Instead I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act. Plus, the Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C. What should be used instead of The Forest Service's huge burn project would be to allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
