Title:

Comments: I support Amendment C. Please keep wilderness wild. The whole point of designated wilderness areas is to keep them natural and allow natural processes to take place. To move into these areas with human-set fires and chainsaws is against the reason for designating these areas as wilderness in the first place. And using helicopters and drones is a further violation of the whole concept of wilderness. Please leave the wilderness areas alone and let your actions be directed by Amendment C. Thanks for your consideration of my comments.
