Title:

Comments: Hello,

I support this withdrawal. When I was young and the area around our house began to be built up the woods transformed into suburban sprawl, I asked my mom "But where are all the deer going to live?" This question comes to me repeatedly as I see nature areas developed. This scenario is different but the sentiment remains the same, my concern for wildlife and natural ecosystems is driving my support for this withdrawal. Please do everything you can to speed things along and expedite the withdrawal proposal to the Secretary of the Department of Interior.

Sincerely,

Nicole Groenke
