Comments: As a taxpaying citizen I rarely support any of the so called 'conservation' policies of an agency that has a budget over \$7,000,000,000 and it's own non profit while purporting to cry the blues of not enough funding. Furthermore the FS has been terrible and complicit in wiping out many NATIVE species in exchange to the support of the logging/mining/drilling and ranching allies and we ALL KNOW THIS. Please do your job for the country that pays your salary and benefits and NOT for the corporate allies.

I support the following don't you and if not WHO is the USFS REALLY working for hmmm

I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
