Title:

Comments: I support this withdrawal. Mining is so destructive to the environment. This area is a pristine sacred parcel of land to the indigenous people of the area. Mining would affect the water quality and once destroyed it would cost millions of dollars to restore. This would not only affect humans but, also other species that rely on clean water. Finally, we need to maintain these areas of extraordinary recreation opportunities for future generations.

Please expedite this withdrawal proposal to the Secretary of the Department of the Interior.
