Comments: I urge you to choose Alternative C, which excludes all Wilderness area from the cutting, burning and manipulation that is currently proposed. It would cease to be a true Wilderness if you start to interfere with the natural state of things. From a wilderness perspective, it is far better to allow natural, lightning-caused fire to play its role, rather than to invade Wilderness to cut down "undesirable" trees and burn forests based on human wishes and desires.

So please, I urge you to select Alternative C and leave the Wilderness areas alone!!
