First name: Lakota

Last name: Harden

Organization:

Title:

Comments: As an elder in this community where my family, my ancestors have lived and stewarded this sacred Black Hills for generations, support the Pactola Mineral Withdrawal. I implore you to protect the pristine state of what is narrowing down on our planet.. sacred clean water, and our source of oxygen forests. . Please withdraw any plans of altering our homelands. To do your part in maintaining Treaty statements defending our people and our connection to this land and water, is a protective measure you have the ability to make.

Your children and grandchildren's future are dependent on your actions today!

Respectfully,

Lakota Harden
