First name: Rebecca

Last name: Lexa

Organization:

Title:

Comments: I support this withdrawal. It is important to protect the integrity of the land and waters of the Black Hills, to include the Rapid Creek Watershed. The withdrawal will further conservation of the sensitive ecosystems here, and make this place even more valuable for ongoing recreation--a much more sustainable form of income than mining. Please expedite this to the Secretary of the Interior to hasten the protection of this place. Thank you for your consideration.
