Comments: I am submitting on the "Sequoia & Sierra National Forest Prescribed Fire Project"

I strongly support Alternative C, the Wilderness Exclusion Alternative. You would think the FS would take into account all the forest fires California has had in the past few years and try and protect any forests left standing. I would encourage the FS and all agencies to understand the primary cause of all the catastrophic major fires is a result of climate change and put their energies into reversing it instead of focusing on auxiliary issues.

Please exclude all designated and recommended Wilderness from logging and burning in the Sequoia & Sierra NF and add Moses Mountain to Alternative C.

Thank you for this opportunity to comment.
