Title:
Comments: Hello, my name is Sophia Lee. I strongly support this withdrawal. It would be an irreparable tragedy for this land to be destroyed by mining. The wishes of the Lakota People for this land and water to be protected should be respected completely. Mining destroys and poisons. Enough harm has been done to our earth by mining already and it cannot be allowed to continue. Please expedite the withdrawal proposal to the Secretary of the Department of Interior. Please do not allow this land to be mined.
