Comments: I most strongly support Alternative C, the Wilderness Exclusion Alternative. The following reasons are offered for the preferred Alternative

First, the Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

Second, the Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

And third, the agency should instead allow natural, lightning-caused fire (other wise termed prescribed natural fire) to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
