Title:

Comments: I write to support the Pactola Reservoir - Rapid Creek Watershed Withdrawal. I understand this proposed mineral withdrawal around Pactola Reservoir and along Upper Rapid Creek would protect the area from mining for a 20 year period.

I am in favor of this action to protect the water supply and natural and cultural resources in the area. I am a summer resident of the Black Hills and deeply value this beautiful and sacred land. Along with its cultural and environmental importance, my family and I and our frequent summer guests enjoy regular recreation activities in this beautiful space.

I am in support of a full watershed withdrawal and an expedited process for this to reach the Secretary of the Department of Interior as soon as possible!

Thank you!
