Comments: Hello

I support this Withdrawal.

These are vital historical lands, but importantly the withdrawal will allow for clean water for the residents of the area. More importantly the land will be preserved and protected at a time when we need more and more land returned to its natural and historical state. Climate chaos is increasingly clear and increasingly dangerous and costly. Preserving this land will be a help to keep the land as it was meant to be - as GOD made it for us to steward. Additionally these are sacred lands which as Americans we should feel pride in preserving and allowing Indigenous people to care for and protect as their laws and culture dictates.

Thank you for your consideration.
