Title:
Comments: I would like to request that you:

1) Drop the 549 acres of remaining complex mature forests from the harvest plans
2) Protect all Douglas-firs trees with a 30" diameter or more in matrix stands
3) Provide a no-cut buffer of 1.5 to 2 drip lines on all trees with a 40" diameter or more to protect their root systems from the negative impacts of heavy machinery
