First name: Lorraine

Last name: Fontana

Organization:

Title:

Comments: I believe the U.S. Forest Service (USFS) should require mining companies to withdraw from this pristine and sensitive area, Pactola-Rapid Creek Watershed in the Black Hills.

I deeply feel that the government needs to maintain our environmental promise to work toward the protection of clean water, and preservation of these pristine/sacred lands.

Please expedite the Withdrawal proposal to the Secretary of the Department of Interior.
