Title:

Comments: While I understand that the Forest is honestly trying to format a plan that mimics nature in its best possible operation, These lands should be last on the list of test spots, as far as they are not subject to other human impositions as power-lines, homes, and roadways.

I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
