Comments: I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

From a wilderness perspective, it is far better to allow natural, lightning-caused fire, rather than to invade Wilderness to cut down "undesirable" trees and burn forests based on human wishes and desires. The agency should instead allow such natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
