Comments: I support the forestry proposal to stop mining and restore the lands to their natural state! I am agains all mining in the Black Hills and the state of S.D. for that matter! I support the Pactola reservoir Rapid Creek Watershed withdrawal. Please help stop the destruction of Pactola where we swim and protect the water tables of our drinking water! Please expedite the withdrawal proposal to the U.S. Secretary of Interior and get started at saving our lives and our Beautiful and Sacred Black Hills!
