Comments: I strongly support this Withdrawal in the interest of ensuring clean water, and the preservation of pristine and sacred lands. I ask the Forest Service to expedite the Withdrawal proposal to the Secretary of the Department of Interior. Our ecosystems have already seen so much degradation--Withdrawal ensures that we move towards preservation of lands and renewal of optimal ecosystems that provide invaluable services to humanity and wildlife.

In addition I believe that these lands also provide a huge value for recreation in the wild. Humans need exposure and interaction to these lands to restore our relationship to these ecosystems and greater understanding of their importance.
