Comments: I totally support the withdrawal as proposed by the USFS. The USFS requested 20,574 acres of NFS lands be withdrawn (closed) to all forms of entry, appropriation, and disposal under the mining laws, mineral and geothermal leasing laws, and public land laws, subject to valid existing rights. Aside from my comments previously submitted during the initial comment period - the withdrawal just makes common sense - in the short term and definitely for the long term. 20 years is a good start.
