Last name: Brown

Organization:

Title:

Comments: I agree with these ideas:

- Drop the 549 acres of remaining complex mature forests from the harvest plans;
- Protect all Douglas-firs trees with a 30" diameter or more in matrix stands; and
- Provide a no-cut buffer of 1.5 to 2 drip lines on all trees with a 40" diameter or more to protect their root systems from the negative impacts of heavy machinery.

Thank you for your time
