Title:

Comments: I am very concerned about the proposed burning and cutting in the Sequoia and Sierra National Forests. It is more sensible to allow Mother Nature to use lightning-caused fire to do the necessary ecological work. I am aware of the Wilderness Exclusion Alternative and support Alternative C. It should certainly exclude all designated and recommended areas from the proposed burning and cutting! With this in mind, please add the Moses Mountain Recommended Wilderness to Alternative C.

These wildernesses are part of this nation's natural treasures. We must protect them for our future generations to see and enjoy.

Thank you!

C. Carlson
