Comments: It is an awful disgrace the way "OUR FOREST SERVICE" doesn't allow our farmer, ranchers, sportsmen, hunters, timber companies and recreationalist to use "OUR FORESTS"!

The management is trying their best to lock up the forest and let it rot. We the people don't need more land and roads put into the big scheme of wilderness or national parks for more grizzly bears and wolves. The "FOREST SERVICE" can't manage the forest fires and are always finding ways to ask the taxpayer for more "MONEY". It's all about politics, money, and the elite. The "FOREST SERVICE" doesn't have anyone in leadership with common sense anymore. The "FOREST SERVICE" just keeps coming up with more and more restrictions, road closures, and ways to foolishly spend money.

Example, clean up the forest along a highway but beyond what is seen is a forest full of fuel ready to burn to a crisp. If you would log it and cleanup as you go, planting trees after ward, we wouldn't have the fires and fuel buildup. Yes, your superiors can drive along the highways and pat you on the back for what they see, but they don't really get the story, do they. OH, but you got your raise and the fellow worker down below you got laid off, oops.

Enough said for now, but your tactics will not be forgotten.
