Comments: I am writing in support of Alternative C, which excludes our Wilderness Areas from cutting and burning within the Sequoia and Sierra National Forests.

Fire has to return to our Wildernesses, but according to the Wilderness Act it can't be started by humans. Only natural processes are allowed in the Wilderness, so we need to wait until lightening starts fires and then let them burn at least to the borders of the Wilderness.

Moses Mountain, a prospective Wilderness area, should also be excluded in Alternative C.

Please keep make Alternative C your recommended choice.

Thanks for your consideration.
