Title:

Comments: As Madera County District 5 Supervisor I am writing to express my support for the Sequoia and Sierra Rx Fire Project Draft Environmental Assessment. In large part, residents in my district understand the need for prescribed fire and its role in a healthy forest. We support Forest Service's efforts in managing these lands and restoring a healthy fire regime. Should you have any questions of me or need any additional information, please contact me at [robert.macaulay@maderacounty.com](mailto:robert.macaulay@maderacounty.com).
