Comments: At this time, with the information I have received. I am strongly against this project. I am very concerned about the wildlife and their habitat, also the damage that will be done to the natural beauty of the mountains! With your reference to the 2018 fire. I witnessed the lack of the air resources not being used in a timely manner. If the response to that fire would have been handled correctly, Lamoille canyon would not have burned, and our homes would not have been threatened. I see no advantage in removing the natural vegetation and destroying the natural beauty of the Ruby Mountains, just to allow other grasses and fuels to take over. Please do not do this!!
