Comments: The Need for Change document does not even come close to addressing, much less meeting, the actual needs of local communities, and does not reflect past comments on how changes in the current management plan would improve the lives of residents as well as visitors to this region.

The planning team(s) needs to hold meetings with the public to refine the Need for Change document such that that truly meets the needs of the local and regional communities.

Please do not silence and continue to sideline those who work, play and raise their families in this area and others that share in our love of our land.
