Comments: This is unconstitutional.. this is America land of the Free . We should have the freedom to explore and enjoy our beautiful land . We the people of the United States should have this right and not be dictated .. this is the reason why we the people are fed up and are voting against democratic policies they are evil and corrupt.. please we the people and I don't want to see anymore governance control over our land . You local government already burned down most our land and that's already gone don't take anymore it's Gods country not yours . If this does pass we will go to the presidency Donald Trump . So it's best you just leave it to the people and don't get the federal government involved like Trump ! God bless ! And don't Tread on us .. also people like me already do alot to keep these areas clean and monitor for illegal activity and report any. there are more of us then public servants ..
