First name: Devon

Last name: Sakaguchi

Organization: Broken Enduro Inc.

Title: President

Comments: I speak for my entire club, when I say that we are extremely disappointed in this extreme restriction of our public land. Not only are you limiting access to these beautiful areas from people incapable of walking there, you are closing long established, and well maintained trails, that link our mountain communities.

All of us from our club consider ourselves stewards of our public lands. We care for them as if they were our own backyards. By restricting access to these historic trails, you've open the door to individuals not of our mindset, that may cut illegal trails to connect existing trails. This will lead to scarification of the forest and erosion into the waterways. Our existing trails are established and maintained.

I strongly oppose this new plan. If there are improvements to these existing trails that need to be done, to limit our impact on the watershed, please contact me and my club will be happy to do the work. Thank you for your time.
