First name: Chris

Last name: Kupczynski

Organization:

Title:

Comments: These trails are visited daily by motor and bike enthusiasts throughout the state. These trails mean so much to so many people. It's unfortunate that some careless person decided to start the fire but it shouldn't be taken away from the very people that care about it. If help is needed to clear brush or trails there are many riding and outdoor groups who are willing to help.

Denying access is also taking away from the local businesses who depend on the outdoor enthusiasts who visit weekly. Please reconsider closing these areas and find an alternate solution and groups and clubs will happily help.
