Comments: My feedback on your draft preliminary need to change plan revision process:

I did not read anywhere in your draft proposed plan that addressed the public's access to THERE public lands, which is the most pressing problem to me (road closures).

The Umatilla National Forest has closed most all roads, except a few main thoroughfares. Now I expect they/you will attempt to do the same on the Wallowa Whitman and Malhuer National Forests.

I am opposed to any policies that would restrict we the public from accessing OUR National Forests.
