First name: Devin

Last name: Hurley

Organization:

Title:

Comments: I was born and raised here in Washington. Over my life I have seen our forests disappear in the name of growth and profit. I am an avid hiker, and outdoor enthusiasts. I do not support any further logging or expansion of logging to our forests. There is already enough private land being destroyed and logged by profit seeking companies. Our National Forests should be prized, and protected. Not monetized.
