Comments: I oppose new roads in the historic habitat and remote Tumacacori Ecosystem Management Area. The area is valued remote wildlife habitat. Existing egress surrounding the area, paired with modern remote/drone technologies provide entirely sufficient ability to patrol for safety of the country. Justification entirely lacks for the proposed road creation, given minor patrol detriments. Additionally, 1 for 1 road retirement is a joke of an offset, quite insufficient for new disturbance offset, and any such needs >3 year patrol to assure closures and recovery. I'm aghast at such a loser of a proposal.
