Title:

Comments: Hello Coronado National Forest.

I am an avid mountain biker & a board member of SDMB, one of the trail building organizations in Tucson. I am commenting to express my support. Tucson has been waiting a long time for more trails. I'm happy to hear of the 6.75 miles of what sounds like flow trails added to rose canyon area. It would be nice to have more like that in the future.

I look forward to riding some trails after the improvements are made!
