Comments: I strongly support the construction of new trails and the proposed re-routes on Mt. Lemmon. I am a 20+ year Tucson resident and frequent visitor to Mt. Lemmon in the spring, summer and fall seasons. I use the trails for hiking and mountain biking. The proposed reroutes noted in the plan to expand/reroute hiking and mountain biking opportunities, especially the first of their kind directional specific mountain biking opportunities, would be outstanding additions to the outdoor experience.
