First name: Nathaniel

Last name: Gordon

Organization: Sonoran Desert Mountain Bicyclists

Title: President

Comments: SDMB supports the Phase 2 Santa Catalina Trail Plan in the CNF. Many thanks to our peers at Tucson Offroad Cyclists & Activists for a decade of work advocating for the opportunities showing up in this plan. To name a few: the Tucson Vista Trail , Fireline Flow and the Crystal/Control trails will transform the mountain bike experience on Mt Lemmon.

The Phase 2 Plan will provide MTB riding opportunities for a broader range of abilities. We at SDMB regularly field requests for more beginner and intermediate trail mileage. Phase 2 will help satisfy this demand and also provide MTB optimized and directional trail experiences which do not yet exist in our region. Further, additional trail mileage on upper Mt Lemmon will distribute use, reduce conflict and keep bikes off roads. Thank you to the CNF for their partnership in developing these new recreational experiences.

Regards,

Nat Gordon

SDMB President
