Comments: I support the Draft Notice and FONSI for the Integrated Management of Target Shooting Project and the selection of Alternative 2, as modified, for the Proposed Action. I would only note that neither Tables 1 nor 2 set forth in the FONSI identify the Nate Stultz Trailhead , #655, as a specific area closed to target shooting and, hence, that trailhead, apparently, will not be afforded the expanded no shooting area protections provided for in the project plan.
