Comments: I very much appreciate and support the hard work involved in drafting this plan, engaging with a wide range of users, and coming to a final plan for adoption. In particular, I support adopting and rerouting key trails that I continue to utilize as a hiker and mountain biker, as laid out in the plan. Thank you for continuing to listen to, work with, and allow volunteer coordination with user groups like SDMB and TORCA in this planning and future implementation work.

It may be worth adding to any adopted plan a 3 or 5-year timeline to factor in any community consideration to e-bike usage or trail designations. It appears that feedback specifically regarding e-bike usage or trail designations was low during the initial public engagement, trends or community sentiment may change with the growing proliferation of e-bikes in the near term.
