Comments: I would like to object to the Turkey Tracks Shooting Range located off Colorado North Highway 67. It has been called to my attention that there have been nine fires at the Range this year and that they do not close the range due high wind warnings. This puts human and livestock lives in danger as there is only two exits of escape out of the region and both would possibly be blocked with a wind driven fire. Due t o the extreme drought conditions, property damages and personal liability would be extremely high. ***A requirement to use the Range should be a sign-in sheet with name, address, drivers license AND park permit. It would be monitored. This puts responsibility of the user of the facility on the gun users. Perhaps the users should have to pay a fee for the use of the public land, like ATV vehicle users do.***

I both live and own property close by and the loud noise is upsetting to me, my children, my grandchildren, livestock and pets. The traffic and litter has increased due to the volume of use. of the Range.

I urge you to close the Range or implement improvements. Thank you!
