Title:

Comments: I am in favor of the East Rim WUI Vegetation Management project. This is a very timely project as the vast amount of dead fall and beetle killed trees make the area a terrible fire risk.

Is there a road maintenance plan? Several years ago the Flying A Ranch & BLM conducted a fuels reduction project which, resulted in damage to public and our private roads. The log trucks and heavy equipment left the roads a mess.

Miner Creek Road crosses the Sloss property(the first 2 miles from Highway 189 to the forest line) where there are 2 blind turns. Will someone be in charge of traffic to avoid collisions with the neighbors?

Please contact me should you have any questions.
