Comments: Dear Chris Welker,
I support the proposed mineral withdrawal on the Hassayampa river. I have lived in Prescott my whole life. During my time growing up, I have spent a lot of time swimming, hiking, and even white water kayaking on the upper Hassayampa river near Prescott. This river has been an incredible sanctuary for wildlife and I have many fabulous memories in this water shed. It would be a real loss to the Prescott community and ecological community if further mining was allowed on the Hassayampa.
