Comments: To the Forest Service,

I support the proposed Hassayampa Mineral Withdrawal. I have lived in Prescott, Arizona for nearly two decades and chose to start my still young family here. The swimming holes, trails, unique riparian environment and exclusive vegetation that can be found in this area are essential to not only the health of the river and surrounding areas, but the quality of life that is so important to me and my family. We mountain bike, hike, and swim in this beautiful area and mining activity is in conflict with how we experience and have experienced this land. As a mom, I am worried about the impacts that mining has on the water quality and health of our community. I want this land and all the opportunities it offers to be available to my children and their children and our community in the future.

Please support the Hassayampa River Mineral Withdrawal and our children's and community futures.

Warmly,

Cecil Goodman
