Title:

Comments: I have lived in Prescott for 20 years and find that the greatest virtue of our area is the creeks, forests and wildlife. I have hiked, rode horses, bikes and trail ran along the Hassayampa River and find peace fill me. I want to request the 20 year mineral withdrawal, that will help protect this area of serenity. I have brought my daughters and hope with all my heart that their children and generations, after can some to discover the wonder of such a beautiful place. I plead with you for fast action for this proposal. Let's help make this world a place that can be a resource for peace in mind for now and time to come. Thank you.
