Title:

Comments: We have owned our land on Spruce Mountain since 1979, and we built our home there in 2005. We have an abiding affection for the forest on Spruce Mountain and the surrounding area. We have hiked the Loop Trail, toured the Senator Highway to Crown Creek, and wandered the area around our cabin for a long time. We are fearful of the damage that might result from the mining activities underway or being considered. We wish to express our opposition to new such activities, and we would hope that efforts to curtail new activity and remedy existing damage can be supported by our legislature.
