Comments: I was raised on the Hassayampa river and currently reside within 100 yards of the Hassayampa. Throughout my time here I have witnessed what little to no enforcement of mining laws has on the environment and river corridor. The US Forest service has failed to renew the 20 year mineral withdrawal plan which has brought us to the current issue. I highly recommend and support the new expanded withdrawal proposal proposed by the USFS for the headwaters of the Hassayampa river

Sincerely,

Brody Fields
