Comments: I would like you to leave Telephone Gap trees alone, please. I would like to see all these trees standing, not cut down, please.

I am a bird and I build my nest in this forest. I am a fox, I am a bear, and I forage in these woods. We are insects and live in this forest to provide food for others. I am a frog, I am a salamander and I also make my home here.

This forest must stay protected. It is essential because it is home to so many creatures. It is important to leave these trees alone because they are essential to our well being. Please listen to the arguments against deforesting Telephone Gap.
