Comments: Hello.

I am opposed to the cutting of trees in the Telephone Gap area. I am opposed to the current plan that has been adopted. My concern is for the environmental impact of cutting in this area, the terrible loss of old growth forest, and habitat destruction and disruption.

I have followed this proposal for nearly a year and am anguished at the prospect of it going forward.

Eugenia

P.S. Although I have entered a valid email address, I keep getting an error message when I click ""submit". Error message persists when I change preference to contact via postal service. So I guess I will say "don't contact me". Almost think this glitch is intentional!
