Title:

Comments: I write in opposition to the Green Mountain National Forest's Telephone Gap logging project. I do not think it wise to be decimating what remains of old growth forests. I appreciate that there is a need for sensible forest management, but I think it shouldn't come at the expense of our precious remaining old growth forests and the endangered species (and other species) living within them. Our climate is already taking a beating!!! Let's do the right thing!!

With thanks,
Sarah Bourne
