Title:

Comments: Dear Sirs,

I am very grateful for the attention given to one of my comments (#528) on the Preliminary Environmental Assessment. There were 21 responses to my comment, and I very much wanted to respond to each of them in some detail. Unfortunately, this will not be possible at this time because I have been ill with Covid 19 and have yet to recover my full strength.

Consequently, I hereby register a formal Objection to the Final Environmental Assessment and Draft Decision in connection with the Telephone Gap Integrated Resource Project #60192 based on my Comment #528 and respectfully request an opportunity to discuss my concerns with you at some later time.

Sincerely,

J. William Stubblefield, Ph.D.
