Comments: I would rather you keep the banks clear and clean for wildlife and for the safety of those visiting the area. Every year we watch and know what happens in Yellowstone people do not respect the area. They do not respect the wildlife and they don't know how to act please do not let them have an impact on that area and the ecosystem and the wildlife that uses it. I know that a lot of businesses rely on tourism in that area, but our state and environment for our wildlife is diminishing second by second in Montana. We have let so many outsiders move in and it is wreaking havoc on our state and wildlife. I am asking that you reevaluate this area and preserve a place for the wildlife to be able to Exist without interference from tourist thank you.
